Proposal

Second Version(no edits)

To whom it may concern,

My name is Christopher Barker, I propose a design concept for Song Family Wheat Tea. A refreshing alternative to water. Beverages to expand into the USA, specially for the asian (South Korean) adults 40 an older that are used to drinking alternatives to water like in their home country. There is a growing popularity of Korean products in Asian-American communities; with growing markets such as H-Mart; yet the older generation is neglected in terms of market. There are two variations of traditional wheat tea, black and regular. This is to develop a more cohesive package into the American market. To highlight South Korean traditional beverages. With advertising such as traditional, refreshing, and South Korean drink. This appeal is for asian communities for original and recognizable South Korean beverages in the United States.

Product 1

Product 2

Cap color single

Flavor name

Cloud interpretation light

Color match for clouds light
CMYK gray 0, 0, 0, 40

Product 3

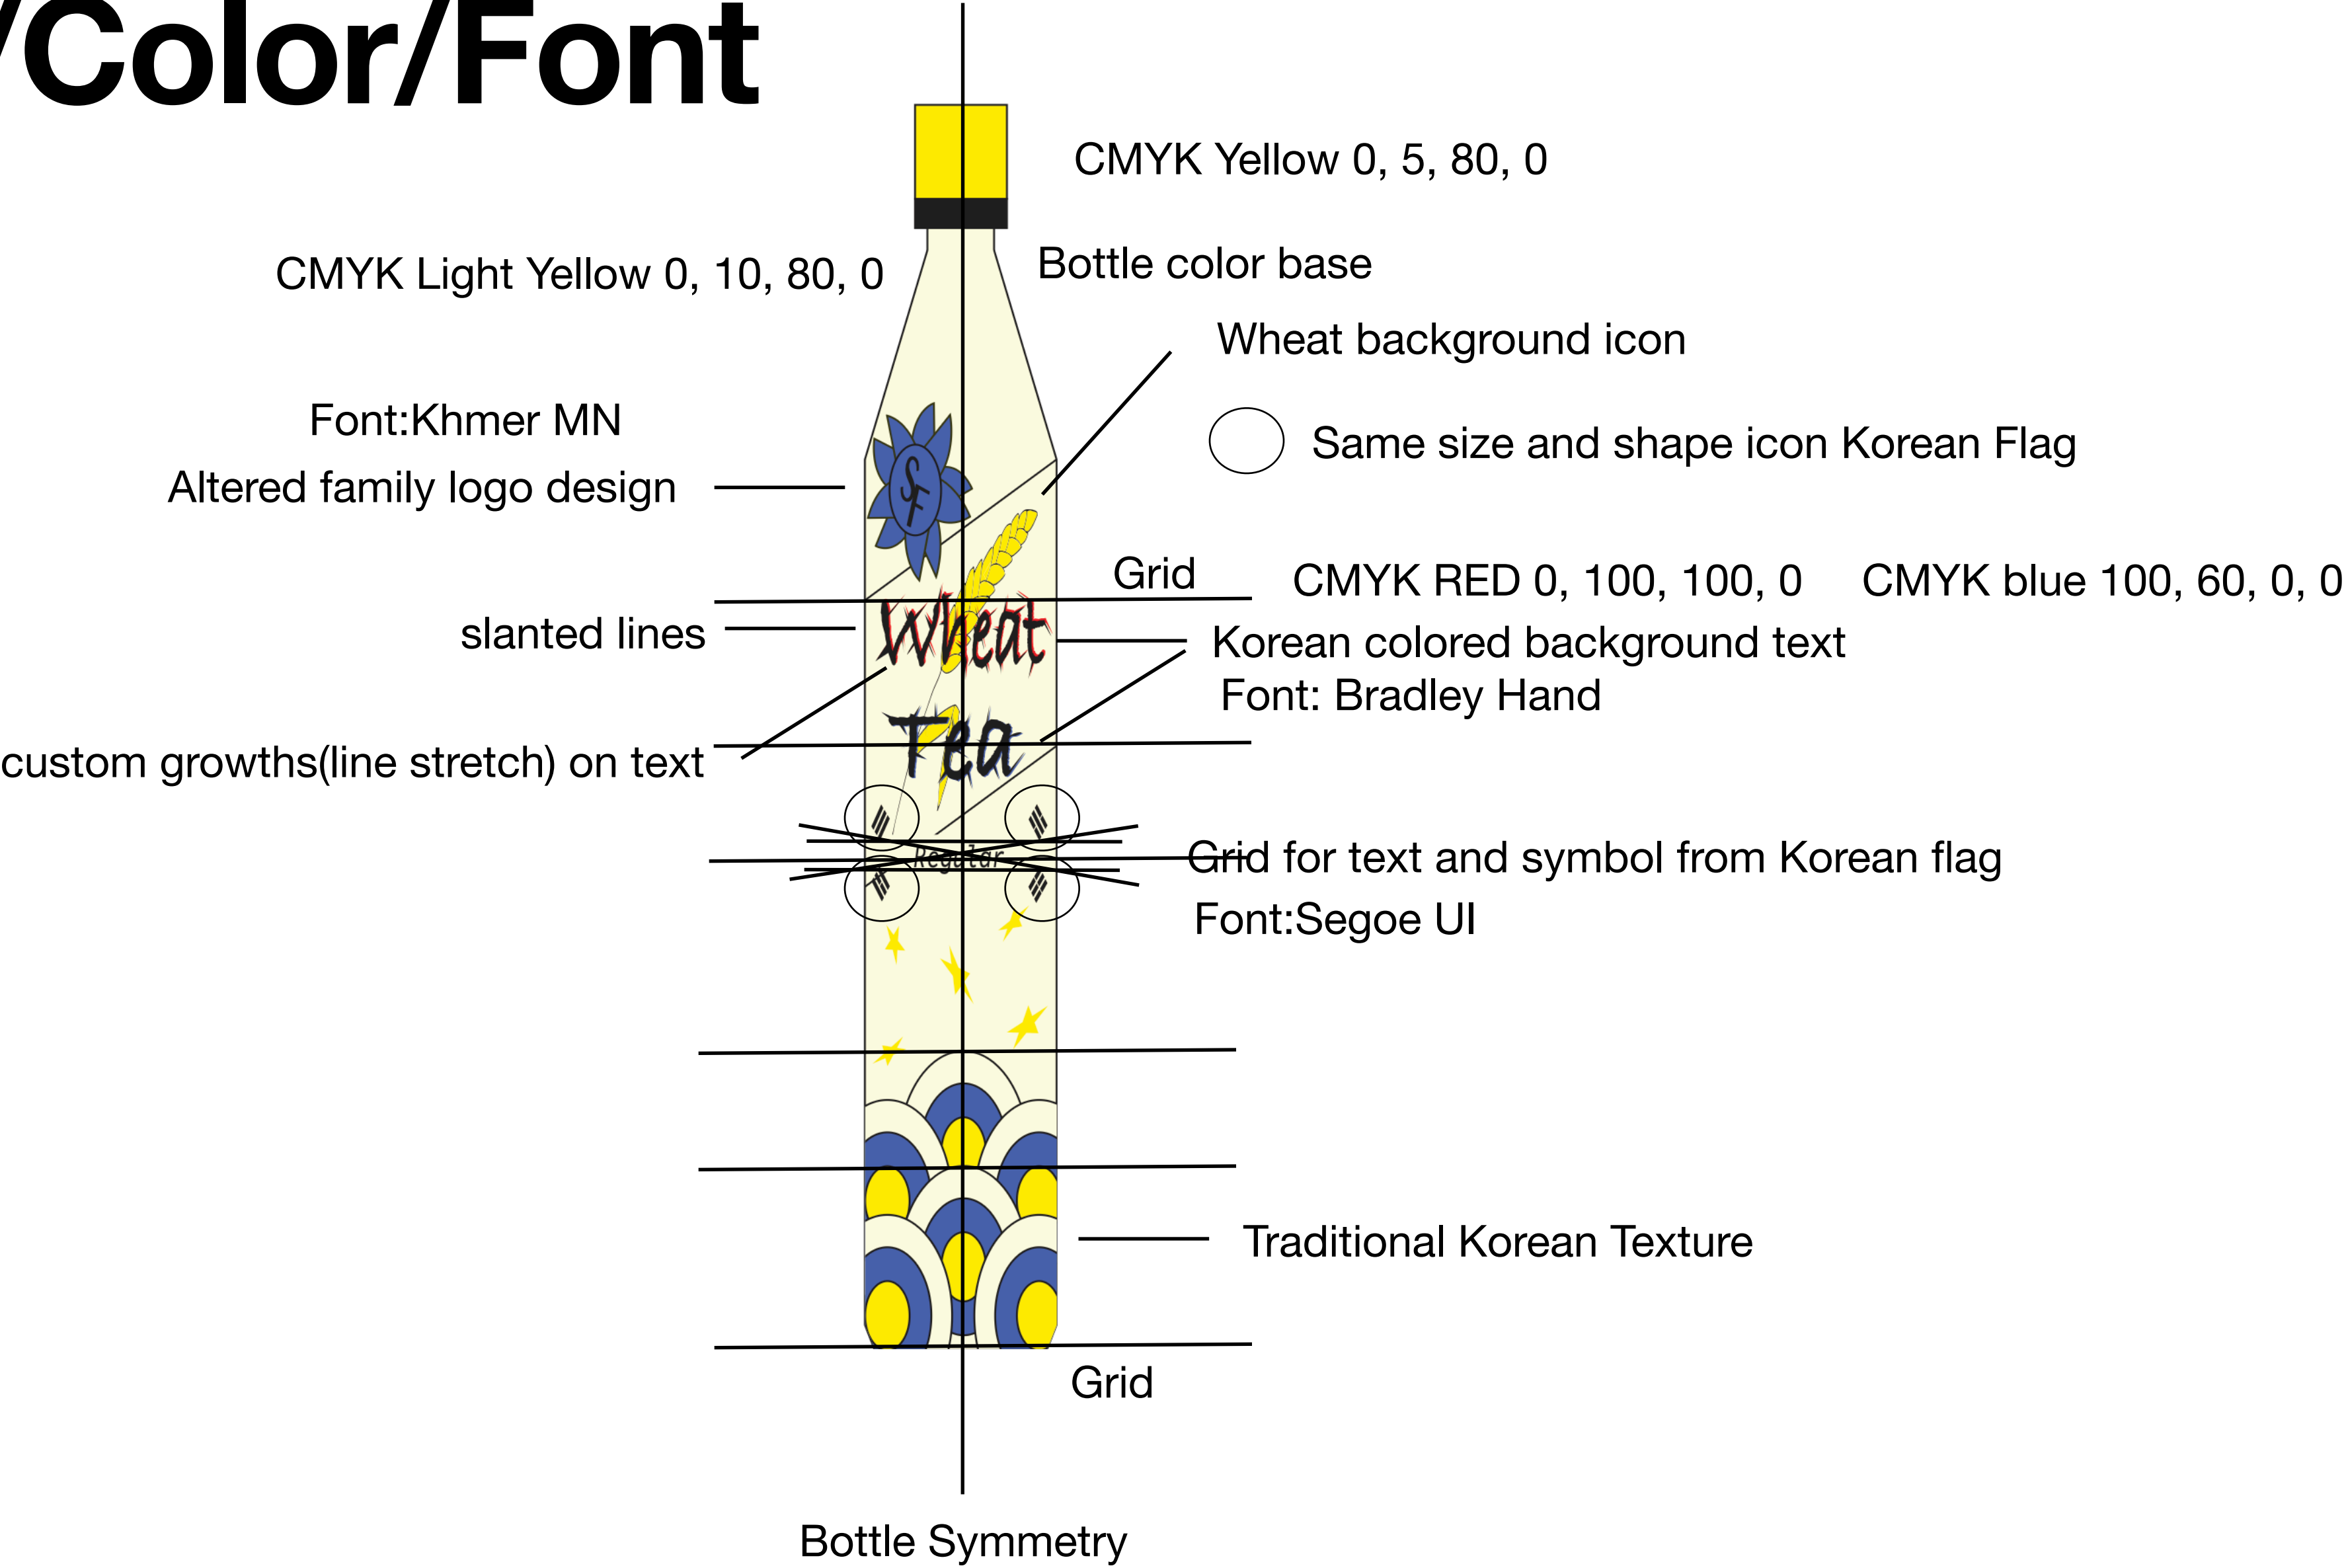

- _____ Cap color single contrast to product 2
- _____ opposition of product 2
- _____ Same imagery with change in darkest color
- _____ Color match with image

Package

Assets/Color/Font

Summary

Song Family Wheat Tea

We hope this presentation gave you a clear view of our products, packaging, and design choices.
