PLU Marketing & Communications
Pacific Lutheran University
12180 Park Avenue S
Tacoma, WA 98447

Dear Simon Sung,

My name is Christopher Barker, and I am writing to express my interest in the **Design Intern position** with the PLU Marketing & Communications department for Spring 2026. As a senior majoring in Web Development and Interactive Design at Pacific Lutheran University, I have a passion for visual interaction and a deep appreciation for how design can inspire and connect our campus community.

After reviewing the internship description and speaking with you previously in graphic design class for Bjug Day, collaborated with the PLU Marketing team, I am excited by the opportunity to gain professional design experience while contributing to real-world projects. The position's focus on creativity, collaboration, and community engagement aligns closely with my academic background and personal goals.

According to the posting, the Design Intern role emphasizes:

- Designing graphics for social media, digital campaigns, and print materials.
- Applying brand guidelines while bringing fresh creativity to projects.
- Building a professional portfolio through real-world design experiences.

These responsibilities match my experience using **Adobe Creative Suite (Photoshop, Illustrator, InDesign, and Premiere)** to create engaging visuals for PLU. I value feedback and teamwork and am eager to learn from experienced professionals who share my passion for impactful design.

This internship would provide the next step in my creative journey—strengthening my technical skills, expanding my portfolio, and allowing me to make a meaningful contribution to the PLU community as well as fulfill the Culminating Experience for graduation. I would greatly appreciate the opportunity for you to review my attached resume and portfolio. Please contact me at your earliest convenience if my qualifications align with the requirements for this position.

Thank you very much for your time and consideration.

Sincerely,
Christopher Barker
